

Summary of THM Pool Operations in 2021

The pool was operational throughout 2021 with some very temporary closures due to minor issues. We had a great group of volunteers who met at the pool at the beginning of the season to power wash the grounds and all furniture. Though we did not require reservations as in 2020 (COVID-related), we did encourage social distancing and asked that all visitors fill out a 2021 Acknowledgement of Risk Form. The maximum number of individuals allowed in the pool was set at 75% (30 swimmers at any given time). Rules pertaining to COVID management will be made per CDC guidelines closer to swim season. The pool cleaning and grounds are still maintained daily by a small group of THM residents who perform regular cleaning. Though regular maintenance and repairs were performed in 2021, the pool is anticipated to require more significant repairs in the years to come due to its age.

Summary of Pool Repairs and Updates for 2021:

1. Stonehouse entry gate latching issues were fixed.
2. After the February freeze:
 - a. Plumbing repairs were made in four (4) areas within the cabana
 - b. New shower heads were installed in each bathroom
3. Zone 4 irrigation was repaired following a leak.
4. The pool gates and fencing were painted.
5. Two retractable hoses for cleaning and watering were purchased to replace old ones outside both restrooms.
6. Landscaping committee and volunteers helped plant and landscape the pool grounds.
7. Drainage installed around the pool to prevent water pooling between the pool and cabana.
8. Commode in the male bathroom was replaced and installed.

Repairs needed in 2022

1. Swinging doors to the male and female restroom will be replaced.
